Dear Hiring Manager,

I am writing to express my interest in the **Senior Software Developer** position at your Company. With strong experience in **Java, Spring Boot, REST API development, system architecture, and DevOps automation**, I have built and maintained scalable applications for enterprise-level clients at DIR-ACE Technology, and I am confident in my ability to contribute effectively to your engineering team.

Over the past years, I have developed secure backend features, optimized system performance, integrated payment gateways, and led the automation of deployment pipelines across SIT, UAT, and Production environments. My experience also includes working closely with cross-functional teams to deliver reliable and high-quality software solutions under tight timelines.

In addition to technical skills, I bring strong problem-solving abilities, attention to detail, and a commitment to writing clean, maintainable code. I also serve as a Project Supervisor at ACE Inspiration, where I mentor junior developers and guide them through backend development best practices. This role has strengthened my leadership, communication, and collaboration skills — qualities I believe are essential for contributing to a modern engineering organization.

I am excited about the opportunity to join your company, where I can continue to grow professionally while contributing my expertise in backend engineering, system design, and performance optimization. I am confident that my background, work ethic, and eagerness to learn align well with the goals of your team. Thank you for considering my application. I would welcome the opportunity to further discuss how I can contribute to your company. Please feel free to contact me at your convenience.

Sincerely,

Nanda Thu Yein
